

148-M-195

8 February 1961

Dear Leo:

At the last Suppliers' Meeting, you offered to help procure a vehicle for flight testing of our package, these tests to be performed in the general area of our home office. At that time we felt the tests would commence in June and run perhaps two or three months. At this time it is apparent that we will not commence these tests in June and, although we cannot estimate a new date, we want to keep you informed.

In view of the possibility that this schedule change may preclude the use of a C-119, which had been considered, I am attaching a description of the general requirements any vehicle must have to be satisfactory for our purposes.

If we can provide additional information or clarification which will be of use to you, please let us know.
